PROFILE SUMMARY

Proficient Software Engineer with solid foundation in C,C++,python, and backend development using MySQL and Java. Skilled in implementing robust features and supporting R&D initiatives with strong knowledge of Data Structures, Operating Systems, and Computer Networks.

PROJECTS

Fees management system using java

Jul 2024 - Dec 2024

Self-based: Platform-used:NetBeans IDE 8.1

Tech Skills - core Java, JDBC, MYSQL database, OOPs, GUI(Java Swing)

- Developed a comprehensive Fees Management System to automate student fee collection, tracking, and reporting.
- Utilized Core Java and OOPs principles to design modular and maintainable backend logic handling fee transactions and student records.
- Integrated MySQL database with JDBC for efficient data storage, retrieval, and real-time updates of fee payments.

Image Stegenography

Jan 2025 – Apr 2025

Tech Skills:python,OpenCv,NumPy

- Developed a robust application to embed and extract hidden data within digital images using the Advanced Encryption Standard(AES) algorithm.

INTERNSHIPS

1. Completed AICTE virtual internship, developing an Android application using Java and Android Studio.
2. Completed a virtual internship at JM Tech in January 2025, contributing to the development and optimization of online shopping and buying processes.

EDUCATION

B.E – CSE, CGPA - 89,Egs Pillay Engineering College (2022 to 2026). HSC, Per - 81, Girls Hr Sec School (2022). SSLC ,Per-87 ,Natarajan Dhamayanthi Hr Sec School (2020).

CERTIFICATIONS

1. Programming in Core Java 6 month course at NIIT with A+ Grade(Jul-Dec 2024)
 2. Business Intelligence & Analytics course (Jan–Apr 2025) with a 54% score(NPTEL)
 3. Java basics certification(Hackerrank) 4.JDBC,OOPS in java certification(great learning)
-

ACHIEVEMENTS

- Served as Secretary of the Designer and Domains Club, overseeing administrative tasks, coordinating events, and facilitating communication among members.
- Participated in the 'PY NIGHTZ' webinar on Python, organized by the Dept of Csbs- Mar2024.
